statement is true

[Program finished]

```java
1  public class Nestedif {
2     public static void main(String[] args) {
3        int a=5;
4        int b=6;
5        if(a==5)
6        {
7          if(b==8)
8          { System.out.println("wrong
   statement");
9          }
10          else
11          {
12             System.out.println("statement is
   true");
13          }
14       }
15 }
16 }
```
